## FUMIGATION CHECKLIST

### After reading, check boxes & Sign. Leave with Occupants Fumigation Notice

- 1. **Mike Falduto Fumigation will request the gas shut-off order with The Gas Company.** A minimum 2 days (48 hours) is required. The Gas Company will shut the gas off at the meter between 7am-11am the days of the fumigation. No one needs to be at the property, they only need to have access to the meter. (Gates unlocked, no pets, etc.)
- 2. **Gas turn-on:** Customers must call The Gas Company to schedule a gas turn-on order. A **minimum 1-day (24 hours)** is required. You or an authorized agent must be present at the time of the turn-on, and must provide The Gas Company with proof of Certification for Re-Entry ( issued by your fumigation contractor) to ensure it is safe to re-enter the property. All appliances will be inspected for safety as part of the gas turn-on service.  
**Southern California Gas Company (800) 427-2200 Long Beach Energy Utility (562) 570-5700**
- 3. The fumigated structure must not be reentered until it has been cleared for re-entry by the licensed fumigator.
- 4. All items for human consumption (such as foods, beverages, drugs, and medicines), which are not intact in the original manufacturer’s airtight containers (such as sealed glass or metal), must be removed from the structure prior to fumigation or double bagged in Nylofume bags. This includes the contents of refrigerators and freezers.
- 5. Remove all mattresses and pillows with waterproof covers, such as “can’t wet” mattresses for infants or sickrooms, or remove the covers. (Excluding waterbeds)
- 6. Remove garment bags from hanging and folded clothes, linens, etc.
- 7. All heating elements must be unplugged (heaters, pianos, organs, etc.).
- 8. Shut off automatic switch controls for appliances and lighting systems that will be included in the space to be fumigated.
- 9. Cut back shrubbery and tree branches to prevent damage. Allow enough space for tent to fall freely to the ground. Tree limbs growing over the roof must be trimmed back. Thoroughly water the ground around shrubs and plants located around the perimeter of the structure the night before the fumigation.
- 10. Trim trees, foliage, remove rock and gravel within 24 inches of the side of the house and 3 feet above the house. Remove potted and/or hanging plants, lawn furniture, Malibu lighting, etc. from perimeter of the structures.
- 11. All people must leave and all living things, such as pets (including fish from aquariums and growing plants), must be removed from your building before the fumigation begins.
- 12. All outdoor pets **must be removed from property.**
- 13. All cabinets, drawers, closets, storage chests, and interior doors must be opened. Raise blinds and open drapes.
- 14. When masking tape must be used for sealing purposes, the fumigation company cannot be responsible for paint or plaster lifting off when the tape is removed.
- 15. All obstructive articles, such as antenna guide wires or weather vanes, must be removed. The company cannot be responsible for changes in TV reception after the fumigation is completed. The company will exercise due care in its fumigation procedures, but will not be responsible for broken roof tiles, gutters, solar heaters, foliage, or other inadvertent damage caused by the fumigation process. Retract all awnings.
- 16. Notify the company prior to the fumigation if any conduits, tunnels, pathways, etc., are connecting the building to be fumigated to any other structure.
- 17. During the fumigation and aeration procedure, the company will not be held responsible for vandalism, theft or breaking and entering.
- 18. Please make prior arrangements with your inspector to leave keys at a place accessible to the fumigations, i.e., under the doormat, or electrical meter box. The law requires that all buildings be locked during fumigation. It is most important that you make key arrangements with the company representative conducting the fumigation.
- 19. Important: Leave **signed** Occupants Fumigation Notice (sign both sides/both pages) with keys in an accessible place as mentioned above, or job **cannot** be done.
- 20. Electricity must be available, as it will be required to run fans during the fumigation period, or job **cannot** be done.
- 21. Call your professional fumigator for additional information or steps you should take.
